PLAY for the golf championship of the United States begins to-day with eighty-three of the most expert amateurs of this country and England taking part. This is by far the smallest field in the history of the tournament, but in quality there is nothing lacking. Harold

"Bus" Hunter, the tell pine of Chicago, did capital work in the Olympic match, but the former Yalenian and intercollegiate champion has always been erratic. Mason Pheipe, likewise Yale title holder in his day, proved strong in the Olympic, but his rise is deemed to be too quick to hold, especially as new though he has been practicing with Aleck Smyth at Twkagyi for a month.

Walter Travit did well the first day he It there is nothing lacking. Harold It. Hilton, the Englishman who won he title last year, is among the enrants. Opposing him will be Norman It. Hunter, another English golfer, Chick" Evans, whom many look it soft and weak every few holes, although not deficient in any one department. Kirkby, Jersey champion, has been doing poorly in practice since his curious showing at Shinnecock Hills, and like Herreshoff feels like kicking himself.

Travers and many others.

Because of the limited number of entrants the two qualifying rounds will probably be completed to-day. This in spite of the fact that 36 holes will be played in every match instead of 18 in the early rounds as heretofore. The contestants were somewhat hampered in their final practice by the heat yesterday, but some of them, among them Hilton, braved the sun and believe themselves fit to give good accounts.

bling block for the Glants because he has proved a demon for nailing runners; trying to steal second, will be out of the game for the rest of the season because of the injury suffered in the last inning of yesterday's game. His loss will be a hard blow for the Cubs to recover from, for not only is he one of the greatest catcher in the game at stopping stealers, but he is also an effective hitter. The Glants have been his particular victim for a long time, and his absence from the Cubs in many will give the New York team a distinct advantage.
